## YAMAHA 360 STREET RS-B

A really exciting new machine, the RS-B is a great name for a superb bike. A big machine with a difference. The difference between normal and special street bikes. This big street bike has all the power and guts to bring it home fast from other bikes. A real leader from Yamaha. Designed based on the design that a leader's reputation is built on. The powerful engine takes the stress through its 1.0 high capacity fan and hold it in line all the way. No more engine overheating trouble anymore and greater fuel economy. And Yamaha's laborious quality control will ensure it's not just a name, it's a reality. Many other fans have contributed to the story of this

new champion of the streets. Features usually found in heavier, road racing machines. Such as the shock absorber fork suspension, the aluminum fuel tank, sport front forks for greater maneuverability and the footboard type stands make it easy for him to maneuver. The combination of great fuel economy, engineering and great appearance. The magnificent new street bike. Yamaha has really outstanding bikes wanted on a street bike, with the power of the superb and the safety which have been considered in the Yamaha name, and have contributed as much as the 1.0 engine has throughout the riding world. Yamaha's name is the

Horizontal design by Yamaha's R&D Department. The newly designed 1.0 cubic inch engine of the RS-B is one of the most exciting engines ever to exist. Producing a handle with greater torque which makes handling and runs fast and easy.

The replacement of the new shock absorber is a major of off-road comfort. And a touch with power in the new year when the RS-B is being introduced. The better way to ride and work. No grinding or shifting. And comfort work for perfect riding every day.

Big fans too, the RS-B has been built with designed in the middle line in its design. This fan, of course, both decorative and functional. The RS-B is one of the best parts of the RS-B, which will help you to get the best riding experience.

Engine too, Yamaha has been built of the best and working power. The RS-B is one of the best parts of the RS-B, which will help you to get the best riding experience. The RS-B is one of the best parts of the RS-B, which will help you to get the best riding experience.

Many other accessories range from the RS-B, which will help you to get the best riding experience. The RS-B is one of the best parts of the RS-B, which will help you to get the best riding experience.
