

*Sometimes you feel
as if you could get up and fly...
so you do.*

It's not just because the CT-1B Enduro 175 weighs a mere 211 pounds. It has to do with the way it's set up. This one's a dirt bike right to its soul, with a wide-ratio 5-speed gearbox to take you through the toughest terrain and Auto-lube oil injection to meter out exactly the right amount of lubrication no mat-

ter how hard you're riding.

Test fly the CT-1B like the one below and on the left above. Or a slightly smaller version, the AT-1B, also shown above. Wilbur and Orville would be proud.
