1980 DC PERFORMANCE BOOK OF TRICKS

Cover photo courtesy of Dirt Bike Magazine. Photographed by Rick Sieman

Dear Gary,

Thanks for your trust and support in me over the years. Regardless of what happens in the future I'll always remember my years on Team DG. After all these years I probably have the biggest collection of DG shirts in the world.

Let's go duck hunting for a couple of weeks at the end of the season.

www.legends-yamaha-enduros.com

Bob Hannah

Terms/Conditions/Policies

PLACING ORDERS:

Enclose a check or money order in the exact amount of the order. California residents include 6% sales tax. When ordering specify items by NAME and DG-PART NUMBER, plus MAKE, MODEL, DISPLACEMENT, and YEAR of bike for installation. For clothing items, state the SIZE, whether for CHILD or ADULT and your COLOR preference.

Any special return shipping instructions must be stated and appropriate cost added—contact local carrier for freight rates you prefer.

For your convenience, we accept VISA/BankAmericard and Mastercharge. If you wish to purchase with either of these cards please include the CARD NUMBER, EXPIRATION DATE, and YOUR SIGNATURE.

MINIMUM ORDERS:

Minimum retail order is \$20.00; minimum dealer order is \$35.00. DG cannot accept orders for less than these specified minimums.

PRICES:

Quoted price for all products and services are F.O.B., DG Performance Specialties, Inc., 1170 Van Horne Rd., Anaheim, California 92806. Prices are effective October 1, 1979, and are subject to change without notice.

SHIPPING:

All retail orders must be PREPAID WITH ORDER and will be SHIPPED FREIGHT COLLECT.

With the exception of porting, all orders will be shipped the same day if in stock. Allow four days shipping on porting. All other orders will be processed according to customer instructions. Those items not in stock upon receipt will be shipped within 30 days. At the end of that time, it will be necessary to reorder that item.

Orders will be shipped plus postage or freight in the most reasonable manner of our choice if no buyer instructions are received. All orders are carefully packed by DG. The carrier has responsibility for the goods from the time it leaves our warehouse until it is delivered to you. Title of merchandise passes to customer on DG delivery to the carrier. All claims for loss or damage are to be immediately made to the carrier.

RETURNS:

Do not return merchandise for credit without first obtaining a RETURN NUMBER. A RETURN NUMBER must be issued for all returns and prominently displayed on the outside of your shipping package. All returns without this number will be refused at our door.

Returned merchandise must be accompanied by a letter of explanation and a copy of your invoice.

Merchandise must be returned pre-paid. Shortages and discrepancies must be reported within 30 days of invoice date. Refused C.O.D. and unauthorized returns are subject to a 20% restocking charge. In any case, no merchandise will be accepted 60 days after date of shipping invoice for return, refund or credit if buyer has not provided written notification in that period.

FOREIGN COUNTRIES, APO or FPO:

Payments must be rendered in U.S. funds (money order in U.S. funds). Foreign checks and currency are not acceptable and these orders will be returned to sender unfilled. There is no C.O.D. service into foreign countries. Funds must be sent for total amount of parts ordered. Upon receipt of proper funds, we will ship the order completely prepaid. All orders must be accompanied by full payment plus 10% for shipping charges.

ENGINE KITS, PORTING SERVICES:

Please allow 4-5 working days for modifications. All porting and kit modifications are done to your cylinder unless otherwise specified.

GENERAL PROVISIONS:

These terms govern all our sales, and may not be changed except with our written consent. Failure to return goods within thirty days of invoice date shall constitute acceptance by you of these terms, notwithstanding contrary terms in any purchase order submitted to us.

These terms shall be interpreted according to California law.

DG Performance Specialties, Inc., agrees to replace or repair any merchandise manufactured by DG found to be defective in materials, design or workmanship within 30 days from date of purchase. Replacement is limited to parts manufactured by DG. All merchandise distributed by DG is guaranteed in accordance with the manufacturer's own terms of warranty.

We make no warranty as to products distributed by us, expressed or implied, including without limitation any warranties of merchantability and fitness for a particular purpose. We will, however, pass on all warranties made by the manufacturer, who has sole responsibility for performing such warranties.

The manufacturer shall be solely responsible for any damage to person or property arising from design, manufacture and testing of its products, and we accept no liability for such damages.

We shall not be liable for indirect or consequential damages.

INTRODUCTION

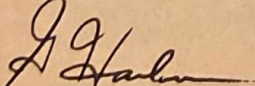

DG's 1980 Book of Tricks contains our all-improved product line for motorcycling sports. Throughout the '80 racing season you can again expect to see DG equipment prominent in the winner's circle. Our motocross performance accessories have been winning races since their introduction seven years ago, with our own successful race team providing the testing for new designs and improvements.

The same technology that made DG a dirt bike winner was used to develop our Street Performance line for STREET enthusiasts introduced in 1978. This year's STREET section is highlighted by DG's six-into-one exhaust system for Honda's CBX, certainly an engineering masterpiece with unparalleled appearance plus improved performance.

We're also justifiably proud of our newest Enduro achievement ... a group of performance products that have created a great deal of excitement when tested by the media.

Rounding out the '80 Book of Tricks is our ever-expanding line of DG apparel for the spectator as well as the participant.

As always, we wish to thank you for your continued patronage and support. And, as a special note of gratitude to those manufacturers and suppliers of products we use and endorse ... we've designed our '80 catalog cover with a pattern of your distinctive logos. Thank You!

Gary Harlow, President

CBX 6 into 1

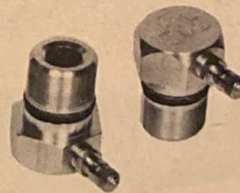

DG's CBX exhaust is a true 6 into 1 system... an engineering masterpiece. Note how the unique collector design results in a much cleaner, slim silhouette providing maximum ground clearance. Deep, rich show chrome for longlasting good looks. Mellow sound. Your CBX deserves it.

MARTEK CDI IGNITION

Martek 440 high performance electronic ignition for four-stroke bikes. Solid state electronics completely eliminate breaker points. Timing is controlled by infrared optical beam from light emitting diodes (LED)... not affected by vibration or wear; precise, adjustment-free timing. Greater high speed spark energy provides maximum engine power; increased coil charging time provides precise timing up to the fastest speed your engine will run. Special one-piece timing rotor fits on original factory spark advancer ensuring easy, reliable starting and smooth idle. Completely self-contained module actually fits behind the point cover. Easy installation... requires less time than to adjust points.

RD350/400 PERFORMANCE COMPONENTS

DG brings to the street scene all the expertise that made DG motocross racing products the performance legend of their time. Our RD pipes and heads coupled with our custom RD porting will let your RD350/400 realize its maximum potential performance.

DG Heads and Expansion Chambers Make a Good Pocket Rocket Better

For this simple bolt-on the results were excellent. We have no doubt that with a little bit of port work and detailing, there's more power to be had in this little ring-dinger.

- CYCLE WORLD MAGAZINE, MARCH, 1978

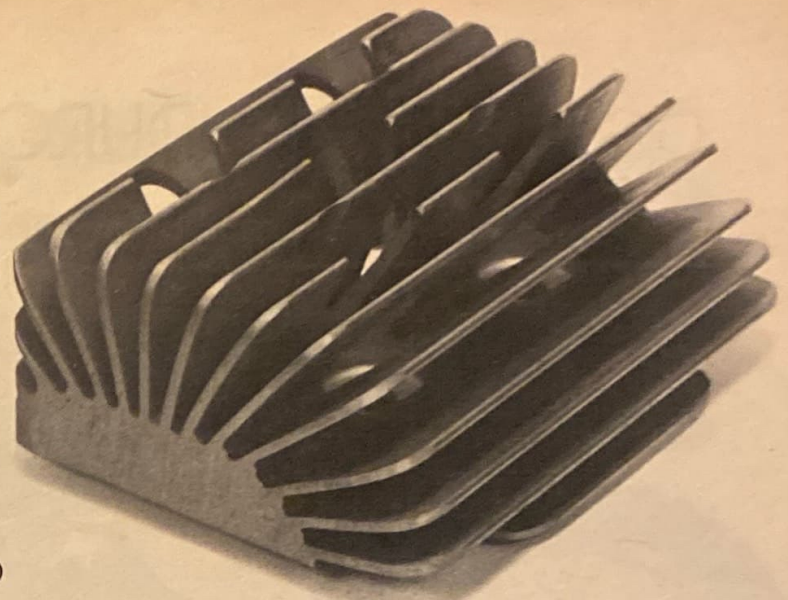

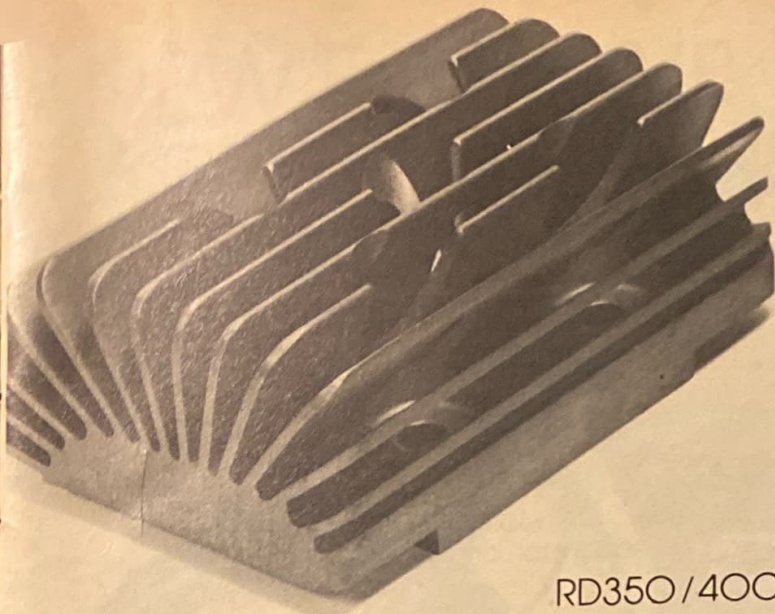

www.legends-yamaha-enduros.com

RD350/400 EXPANSION CHAMBERS

Twin DG pipes provide more horsepower, permit higher rpm and greater midrange power with its widened power band. Peak rpm is achieved in much less time. Each model is individually designed and tested. Only the finest quality 20g steel is used. A repackable silencer completes the package.

RD350/400 RADIAL HEADS

High-compression DG heads brighten the performance of Yamaha's RD400E.

- CYCLE MAGAZINE, MARCH, 1978

The increased cooling area of DG's aluminum radial heads reduces head and exhaust temperatures letting you run a leaner mixture and hotter plugs, provide higher compression and rpm yielding more horsepower. DG radial heads are extruded from solid aluminum bar stock, forged at high temperatures. Lustrous gold anodized finish. Requires 3/4" spark plugs.

NEW From KYB

"F" Series motocross air shock

Performance features include;

Air/oil shocks feature infinite air adjustment so they can be set to **exact** requirements using an ordinary hand pump.

Air shocks react to keep the wheel firmly on the ground.

Three rebound dampening settings easily adjustable to suit the rider or the course.

Lighter weight - 30% lighter than most gas reservoir shocks and lighter than other competitive air shocks.

Flexible "Heim Joint" upper mounting eye relieves stress

Gold hard anodized aluminum alloy body defies corrosion.

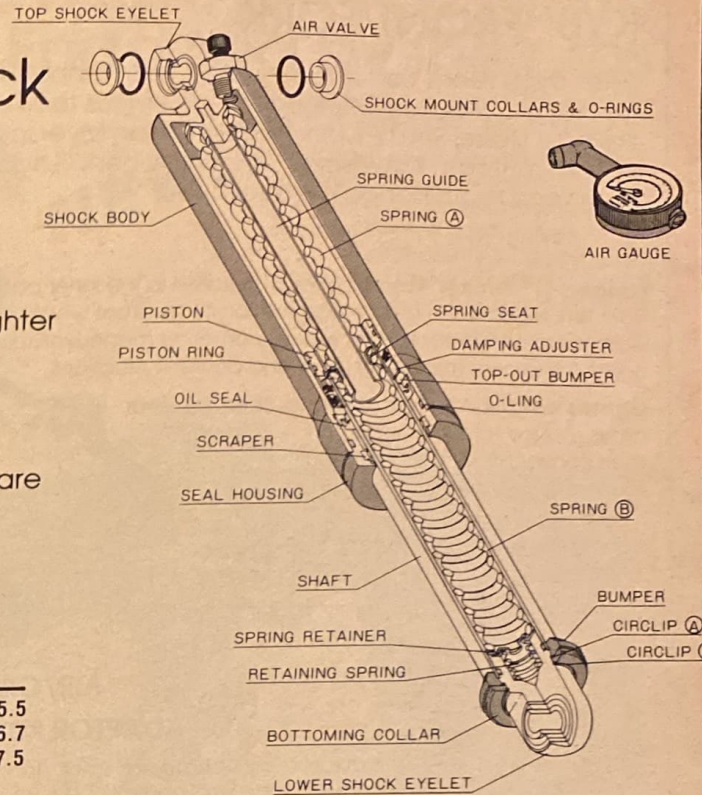

KYB "F" series air shocks are rebuildable

Comes complete with highly accurate air gauge, mounting hardware and installation instructions.

Available in 15.5, 16.7, and 17.5.

KYB "F" Shocks	15.5	110-505-15.5
KYB "F" Shocks	16.7	110-505-16.7
KYB "F" Shocks	17.5	110-505-17.5

DIAGRAM OF SHOCK PARTS

KYB "F" series
air shocks are rebuildable

KYB FRONT FORK

Used by all team Yamaha including, Bob Hannah, Broc Glover, Mike Bell, Rex Staten, Rick Burgett, Gaston Rahier, Plus team Suzuki's Danny LaPorte, Darrel Shultz, Mark Barnett, Brian Myerscough, Kent Howerton, team Kawasaki's Jimmy Wienert, Gaylon Moiser, Jeff Ward and team Honda's Warren Reid.

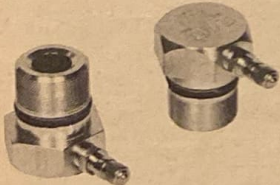

Longer, 11" stroke. Absorbs energy created in the inner part of the front fork tube by the arc charge motion of the front wheel. provides more comfortable ride, superb cornering maneuverability, outstanding performance in uphill and downhill situations.

Lighter weight. Adds extra speed. Special metal alloys reduce total weight of fork - 15% less than conventional forks - without sacrificing strength.

THE DG RACER

CR125R

The complete DG Racer is track-ready. Starting with your choice of a new 100 or 125cc Yamaha, Honda or Suzuki, all DG Racers are prepped by DG's own mechanics to DG Race Team specs with the items listed below. Some items vary from model-to-model.

- Pro Engine Kit
- Oakley II Grips
- F.I.M. Side Panels
- Dehandler Levers
- DG Grand Prix Seat
- Kayaba Front Forks
- DG Gold Rims and 8 Gage Gold Spokes
- Dunlop K190
- GP Front Number Plate
- Aluminum Swing Arm
- 520 Chain/Sprocket Kit
- Werks-Bend Chromoly Bars
- Luft Reservoir Shock (YZ's)
- KYB Shocks

CR125R	117-556-00-0
YZ100F	236-556-00-0
YZ125F	228-556-00-0
RM100N	340-556-00-0
RM125N	352-556-00-0

And other Trick Touches to achieve that DG TEAM LOOK

The purchase price of your DG Racer or Mini Racer includes having a DG Factory Mechanic with you on the first day you race your new DG Racer. We do this in order to provide on-the-spot tuning for that first race and offer advice on a continuing maintenance program to help you keep your DG Racer a top performance machine. (Limited to races held in the continental United States).

DG'S MINI RACER

KX80

The complete DG Mini Racer begins as a new 80cc Honda, Yamaha, Suzuki, or Kawasaki. DG's watchful mechanics then race-prep to DG Race Team specs with the items listed below.

YZ80F	227-556-00-0
RM80N	351-556-00-0
KX80	486-556-00-0

- Chain Tensioner
- Expert Engine Kit
- DG Grand Prix Seat
- 428H Chain/Sprocket Kit
- Werks-Bend Chromoly Bars
- Dunlop K190 or IRC F45 Tires
- And other Trick Touches to achieve that DG TEAM LOOK.
- Oakley II Grips
- Mini Betor Fork
- Dehandler Levers
- F.I.M. Side Panels
- Aluminum Swing Arm
- GP Front Number Plate
- KYB Remote Reservoir Shocks
- DG Gold Rims (17" / 14") and 8 Gage Gold Spokes

STAGE 2 FOAM AIR FILTER

"The Competition Filter"

The Stage 2 filter is the most innovative dual stage filter available. Maximum entrapment of grit due to the coarse outer foam, while inner foam blocks fine particles. Prolongs your engine life by maintaining a clean engine.

PJ1 ACTION OIL

Revolutionary Foam Air Filter Preparation

PJ1 Oil does not settle out or yield to gravity over long periods of inactivity or those long waits between events. Filters may be

prepared long before the race and installed whenever needed. Temperatures, high or low, do not affect its ability to trap and hold dust or shed water. When used properly, PJ1 OIL WILL increase the efficiency of a foam filter for longer periods of time without maintenance and without clogging.

HEADS

The Gold One ... DG's Radial Head!

Radial design helps radiate more heat even faster! Result: head and exhaust temperatures are lower by as much as 100 degrees. All DG radial heads are anodized to a lustrous gold finish.

- * **Note:** KX80, RM80 All, YZ80E/F, RM125B/C and RM100C heads require use of DG's pipes. This is because stock pipes would require so much cutting to the head that there would be no cooling improvement.

THE DG PRO SERIES RACE PIPES

DG's PRO SERIES PIPE is an improved expansion chamber for your racer, proved by dyno-testing and race results to be superior to others on the market. At DG, Pipe technology is a continuous development program with each year producing more advanced and refined models. Each model is individually designed and race-tested; quality materials and workmanship further ensure high performance and durability. That's why we think the best competition pipe for two-strokes is the new DG PRO SERIES.

STAMPED RM125N PIPE

- RUGGED 20-g STEEL, WELDED FOR MAXIMUM STRENGTH
- WIDENS THE POWER SPECTRUM AT ALL SPEEDS
- MORE TORQUE FOR COMING OUT OF CORNERS
- INCREASED TOP END HORSEPOWER

Is Bob Hannah about to eat it? Yes it's Bob. But, no... he's not about to eat dirt. The awkward-looking pose is merely a part of Bob's unique choreography, caught by a fast shutter as he swung this YZ80F through a 270° turn after roosting up a 12 foot embankment during a mini test ride. It's testing like this plus actual race-testing by DG's Mini Race Team that ensures high performance and quality for your mini racer with DG products. All DG Mini products are NMA-approved.

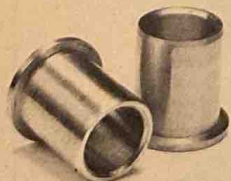

DG's ALL ALUMINUM MINI SWING ARM

Gives you eight inches of swing arm travel by running the 13.5 longstroke shock. Lightweight yet super strong. All Aluminum. Comes complete with Bushings and Chain Tensioner. Lay-Down type only.

MINI SWING ARM

RM80B/C	341-504-01-0

CR125 SUPER PRO KIT

RM 125N PRO KIT

YZ125F PRO KIT

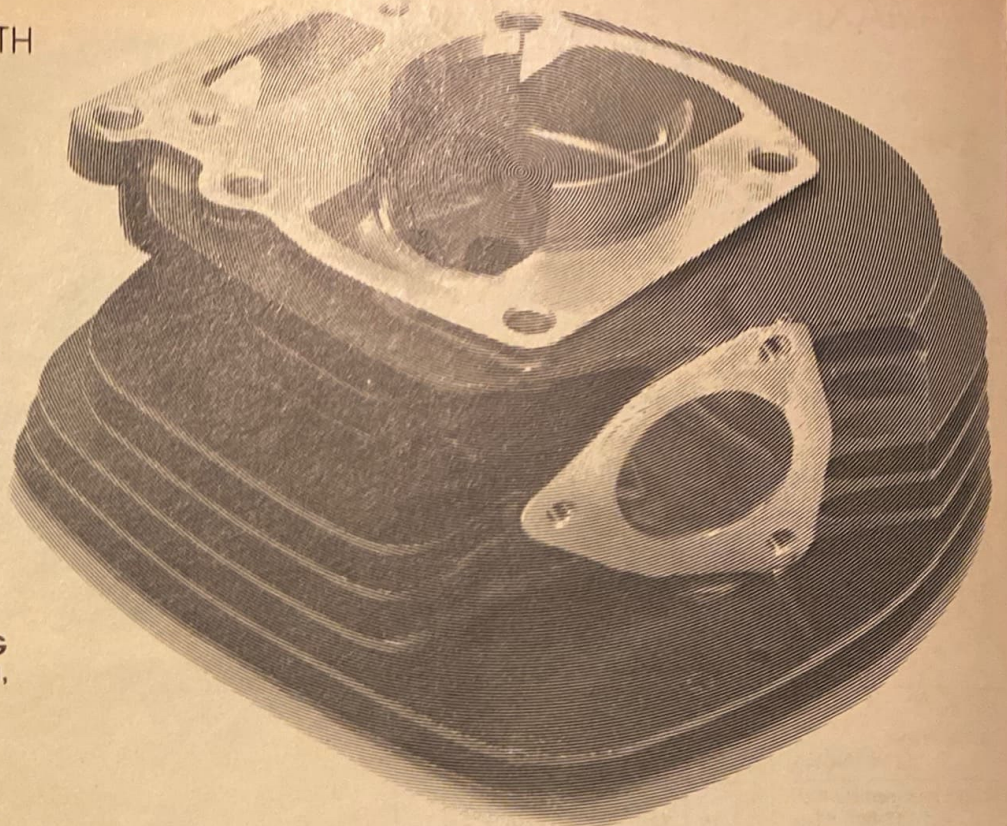

PERFORMANCE BEGINS WITH PORTING...

As well as your straight factory bike performs, polishing and porting will give you performance in a combination of your choice. DG offers you increased performance in the following stages, with equipment combinations to match.

MINI PORTING

KX80, YZ80, RM80

Stage 5: Factory Porting

100CC, 125CC, 250CC PORTING and POLISHING FOR Yamaha, Honda, Suzuki

STAGE 3:

Polishing and matching of all ports, plus factory modification to timing of exhaust and intake ports, and glass beading of intake and transfer ports.

STAGE 5:

Includes Stage 3 plus double boost port modification to barrel and piston for Hondas. More radical port timing for Yamaha and Suzuki.

NOTE: Porting done to your cylinder or additional core charge.

NEW SLEEVE KIT for CR125 and CR125R

Includes: steel liner, matching of liner to cylinder, piston, rings, pin, and clips.

DG's CR125 SINGLE-RING PISTON

DG's new, die-cast CR Piston has added strength in dome and sides. Uses standard single Honda top ring so you can Boost Port and still get rings from DG or your local Honda shop. Available in 5th over, so all your old barrels are alive again! Comes complete with Ring, Pin, and Clips.

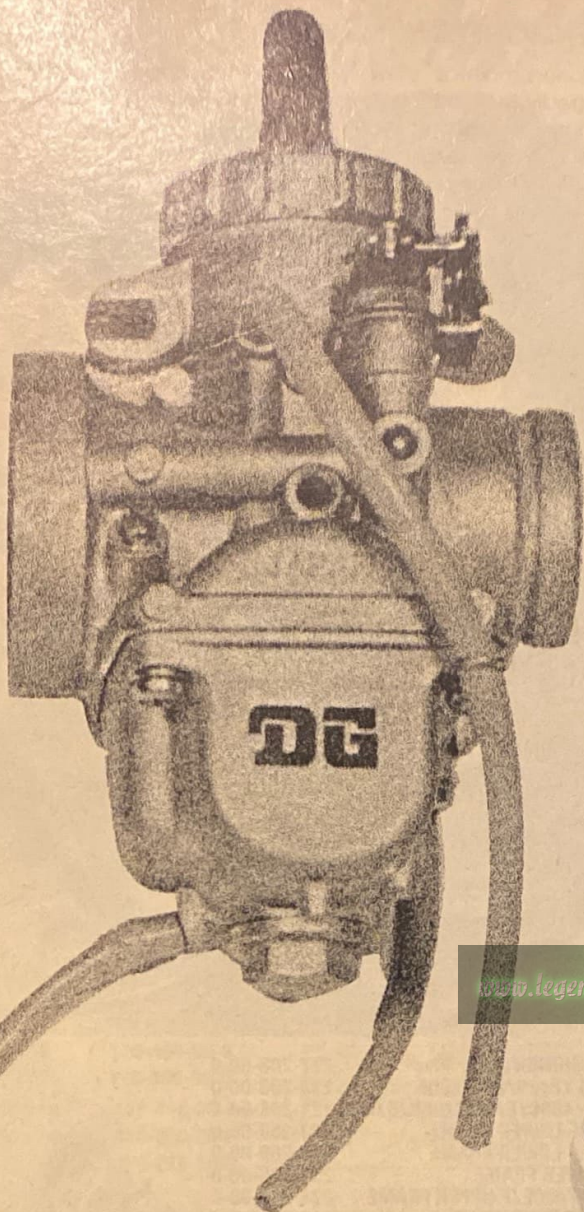

Std 104-405-00-0

DG ALSO MANUFACTURES A PISTON FOR THE YZ80 AND RM80... SHOWN IN OUR MINI SECTION.

CARBURETION

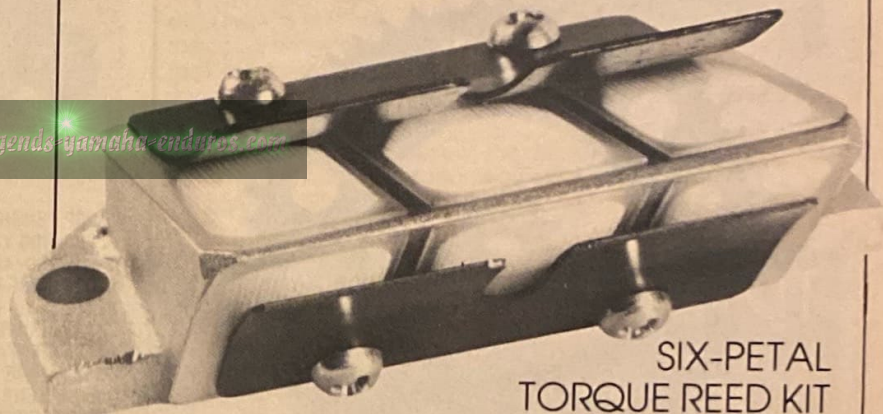

... the key to performance

DG prejets all carbs for maximum performance... attainable in the past only through fine tuning by a skilled mechanic. Today, prejetting done to DG's own race team specs gives you that max performance with bolt-on convenience. Another of the many "tricks" we've learned at the race track to upgrade fuel system performance for your bike. NOTE: ALL DG CARBS ARE PREJETTED FOR 20:1 GAS OIL MIX.

SUDCO-MIKUNI BOOK OF KNOWLEDGE

EVERYTHING YOU ALWAYS WANTED TO KNOW ABOUT MIKUNI... is now available for the first time in the SUDCO-MIKUNI CARBURETOR and PARTS MANUAL. This exciting, highly informative 36-page manual contains all the latest technical information for partsmen, mechanics, and consumers alike. Highly detailed, easy-to-follow sections cover such subjects as normal maintenance, tuning for performance, and step-by-step trouble shooting, etc. In addition, the text features: complete parts listings, cross referencing of parts, interrelated functions of parts, and horsepower curves. For maximum understanding, the manual is precisely illustrated with comprehensive photos, diagrams, exploded views, and graphs.

ACC-125-00-0

Mark Charles' FLOOR STAND

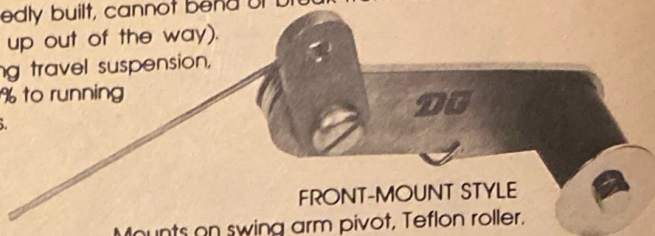

Uses "pole vault" principle to roll (not lift) bike into working position.

STAND KIT ACC-553-01-0

CHAIN TENSIONERS from DG

Chain tensioners maintain chain tension between races and act as a chain guide. Ruggedly built, cannot bend or break from rocks or brush (folds up out of the way). Ideal for long travel suspension, can add 20% to running life of chains.

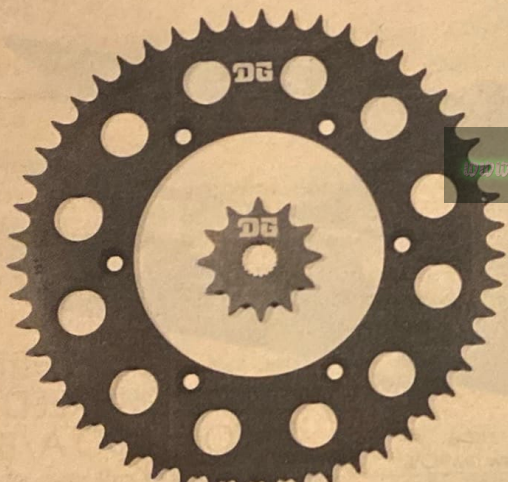

FRONT-MOUNT STYLE
- Mounts on swing arm pivot, Teflon roller.

DG MOTOCROSS CLOCKS

BOB HANNAH SIGNATURE CLOCK
Large 17"x22" full-color decorator clock with transistorized movement. Battery-operated... no wires to spoil your decor. (Batteries not included). Depicts "B.H." in the act of winning (naturally), with his signature emblazoned in white.

ACC-900-00-0

"FIRST TURN" CLOCK
Same specs as above except the depiction is of a classic first turn with everyone sorting-out and jockeying for position.

ACC-903-00-0

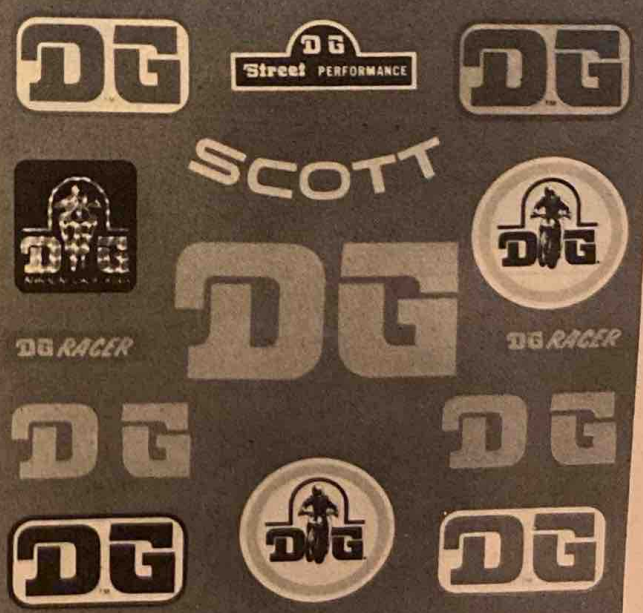

MOTOCROSS TIRES

IRC's newly designed tires were developed especially for Motocross... to give you super traction on any track. The IRC mini-motocross tire is used by the DG Mini Race Team.

IRC MOTOCROSS TIRES		
IRC Mini	360x14	117-360-00-0
	410x14	117-410-00-0
	275x16	117-275-06-0

	510x18	117-510-00-0
	300x21	117-300-00-0

DG STICKY KIT

Your favorite decals from DG, including the "patch" decal like the one worn by Bob Hannah.

ACC-517-00-4

ODESSEY MOTOTEK IGNITION

Get breaker-less reliability, adjustment-free operation, easy starting, smooth power all the way from idle to engine max.

102-245-00-0

ODESSEY CLUTCH KIT (TORQUE CONVERTER)

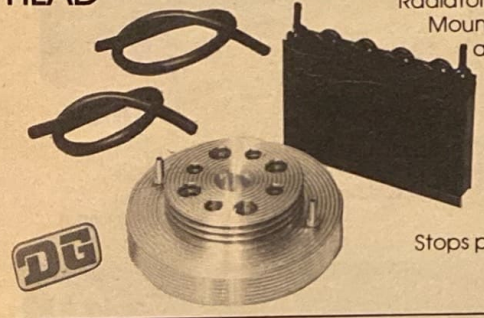

Engages clutch at 4500 rpm rather than 3500 (factory) rpm.

115-581-00-0

ODESSEY WATER-COOLED HEAD

COMPLETE KIT: Water-Cooled Head, Radiator, Hose, Clamps, Mounting Hardware, and Instructions.

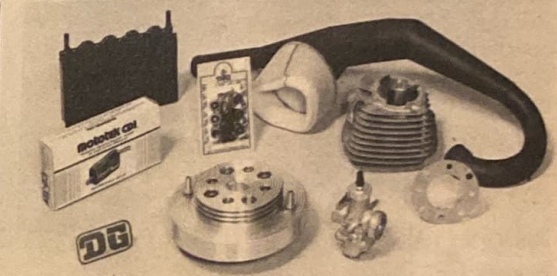

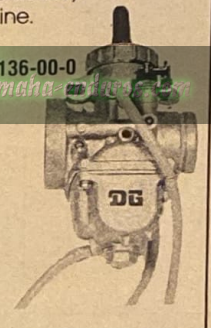

Stops power loss from overheating.
115-101-01-0

ODESSEY CARBURETOR

A 30mm Mikuni, pre-jetted especially for Odessey engine.

115-136-00-0

ODESSEY ENGINE KITS

EXPERT KIT (Shown): Includes: Water-cooled head, Pro hi-pipe, porting of your cylinder, thin head gasket, 30mm Mikuni prejetted carb, clutch kit Mototek ignition, and a filter. 115-010-01-0

INTERMEDIATE KIT Includes: Pro hi-pipe, thin head gasket, 30mm Mikuni prejetted carb, clutch kit, filter, and side scoops. 115-020-01-0

ODESSEY PRO HI-PIPE (with silencer)

Gives wider power band, quicker response, more top end power.

Pipe only 115-118-00-0
Pipe with spark arrestor 115-118-01-0

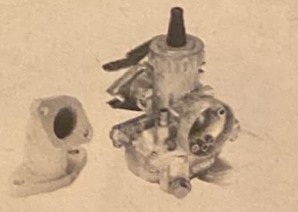

ATC PIPE with rebuildable silencer. Increases horsepower throughout the power band. Complete with mounting hardware. 176-116-00-0

ODESSEY STAGE 5 PORTING

Polish and match all ports, modify timing of exhaust and intake ports, glass bead intake and transfer ports, match pistons. (See 'porting' on price list).

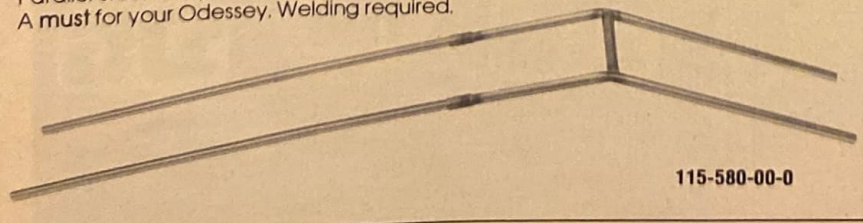

ATC 24mm CARB KIT

Includes: Carburetor, jets, manifold, throttle, cable, and air cleaner.

ODESSEY SAFETY CAGE

Parallel steel rails provide added safety in the event of a roll-over. A **must** for your Odessey. Welding required.

115-580-00-0

ODESSEY THIN HEAD GASKET SET

Increases engine compression for added power. 5 per package.

107-501-05-0

STAGE TWO AIR FILTER

Filter 124-557-32-0
PJI Oil, pint 124-557-00-0

BOYKO RACING JET SKI EQUIPMENT

TOW ROPE KIT

Fast drying canvas-type nylon bag, with Velcro fasteners, holds your valuables and a length of ultra strong, nylon cord tow rope for emergencies.
489-211-00-0

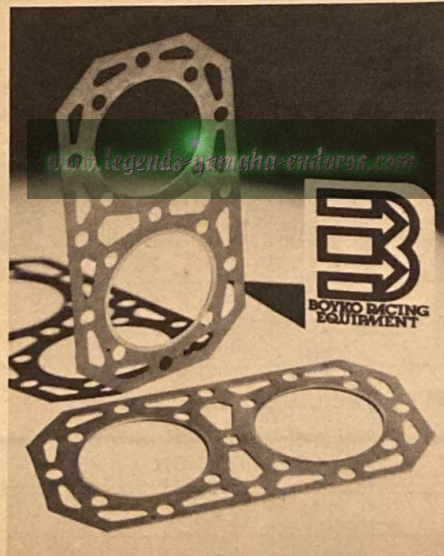

GRAB ON GRIPS

Replace the stock waffle pattern with Grab On grips for maximum control and comfort. Close cell foam eliminates vibration and remains dry.
489-512-00-1

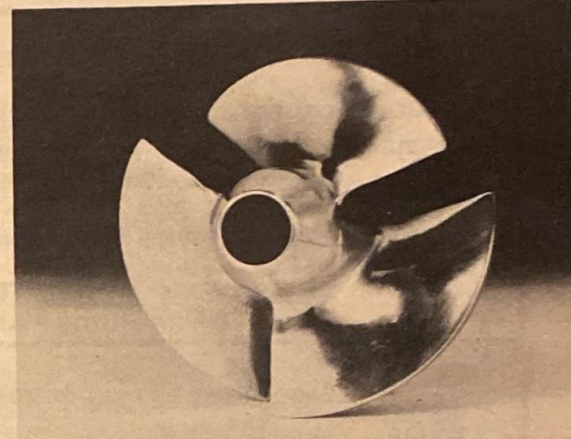

BOYKO RACING PIPE

The Two-into-one racing pipe improves low-end torque, while adding horsepower. Kalgard coating, inside and out, insures a long life.
489-117-00-0

THIN HEAD GASKET

The quickest and least expensive way to increase horsepower and compression.
489-501-00-0

BOYKO RACING IMPELLER

The Racing impeller is cast to exacting racing specs out of aluminum alloy. The Racing impeller gives more pounce per ounce.
489-210-00-0

MODIFIED STOCK IMPELLER
Decrease cavitation and improve power with a high luster, machined and polished impeller.
489-200-00-0

COMPETITION BEND BARS

Competition bars give more lateral control, improved riding position and are tested in National competition. Powder epoxy paint in competition blue.
489-512-00-1

JET SKI PORTING

Factory racing mods to the exhaust and intake ports, glass beading, polishing and matching of all ports, plus double boost port modification to the barrel and piston. Porting done to your cylinder or additional core charge.
