'90 YAMAHA

LIVE FREE. RIDE AYAMAHA.

www.legends-yamaha-enduros.co

Don't let the world pass you by. Instead, become a part of it. Feel the air against your body and thrill to the power at hand. Ride a motorcycle and discover new sights, new experiences and, most of all, new emotions.

Yamaha believes that the feeling of freedom is what makes motorcycling so enjoyable. It's a freedom you can't experience in any other way. Go for a ride on a Yamaha and discover what makes motorcycling, and Yamaha, so special. You see, Yamaha specialise in good times. In addition to motorcycles, we build a whole range of leisure products including water vehicles, snowmobiles and all-terrain vehicles. We know how to have fun. And our experience in building so many products for the good life helps make our motorcycles that much more fun to ride.

So live free, and live an adventure. Ride a Yamaha.

Racing Rewards Us With Victories.

The Yamaha name is synonymous with racing, because the race-track is where we test our technology. Yamaha racers have achieved many victories in Grand Prix World Championship racing. The Deltabox frame used on these racers is the same one found on Yamaha's FZR street machines. Similarly, the same 5-valve cylinder head used on our winning endurance racing machines is also used on our big FZRs and the XTZ750 Super Ténéré. Countless smaller innovations are also tested while racing, often spelling the difference between victory and defeat.

Only if an idea works on the race-track is it applied to our production machines. This use of technology goes a long way towards making our motorcycles so special. And our riders' enjoyment so extreme.

gends-yamaha-endur

YPVS (Yamaha Power Valve System)

Used on our 2-stroke machines, YPVS features a power valve located in the exhaust port which changes exhaust port timing in response to changes in rpm. It gives these engines lots of low-end and mid-range torque and high power at the top end.

uww.legends-yamaha enduros.com

5-Valve Engines

These engines feature three intake valves and two exhaust valves. The result is a wide spread of smooth, torquey power. These engines are not only very powerful, they're also very exhilarating.

Genesis

The Genesis concept is a revolutionary new way to build motorcycles. It combines the engine and chassis into a synergistic motorcycle giving wonderfully balanced handling, excellent power characteristics and therefore incredible enjoyment.

EXUP (Exhaust Ultimate Powervalve)

EXUP locates a valve driven by a microcomputer-controlled servomotor between the header pipes and muffler. The result is "tuned" exhaust performance regardless of rpm. Throttle response is fantastic and torque is increased at all rpm.

XTZ750 Parallel Twin

This is one of the most compact 750cc engines ever made. Featuring a 5-valve, double-overhead camshaft head, its torquey power, lightweight and wonderful throttle response make it a joy to ride, on-road or off.

Deltabox Frame This is the famous fabricated frame that has carried Yamaha road race machines to so many world championships. Light weight and exceedingly strong in order to reduce flexing, it gives wonderful stability and handling performance.

Our Riders With Advanced Technology.

uamaha-

The Perfect Ride Is Just Around The Corner.

Lots of motorcycles are fun to ride in a straight line. But it isn't until the road turns that you discover what a machine is really made of. Yamaha high-performance machines have the same technology as our world championship-winning racers. Genesis designs, Deltabox frames, 5valve heads and Monocross suspensions-this is technology developed through racing. This same technology makes our motorcycles a joy to ride when the road gets twisty. Yamahas offer stability, handling and acceleration. Everthing you need to discover how much fun is waiting around the next corner.

FZR1000

• 4-stroke. liquid-cooled. DOHC 5-valve, parallel four-cylinder engine • EXUP • Aluminium Deltabox frame and swinging arm • 43mm front forks with new pre-load adjusters • Triple disc brakes • Hollow-spoke alloy wheels and wide radial tyres • Aerodynamic full fairing with FAI system • White chromed 4-into-1 exhaust system • Transistorised digital ignition

• 4-stroke, liquid-cooled, DOHC 4-valve, parallel four-cylinder engine • Mikuni BDST32 flat-slide downdraught carburettors • Deltabox frame • Triple disc brakes with 4-pot calipers • Hollowspoke alloy wheels and low-profile tyres • Pulse-tuned 4-into-1 exhaust system • Aerodynamic full fairing with FAI system • Transistorised digital ignition

 2-stroke, liquid-cooled, parallel twin-cylinder engine

 Crankcase reed-valve induction and Yamaha Power Valve System
 Aluminium Deltabox frame
 Aerodynamic full fairing

 Monocross suspension
 Floating-disc front brake with 4-pot opposed-piston caliper
 Hollow-spoke alloy wheels and low-profile tyres 4-stroke. liquid-cooled, DOHC 5-valve, parallel four-cylinder engine • EXUP • Aluminium Deltabox frame and swinging arm • Damping- and preload-adjustable 43mm front forks
 Monocross rear suspension with Ohlins racing shock absorber • Triple disc brakes • Hollow-spoke alloy wheels and Michelin Hi-Sport radial tyres • Hand-laminated full fairing with FAI

• 2-stroke, liquid-cooled, parallel twin-cylinder engine • Aerodynamic full fairing • Yamaha Power Valve System • Expansion-chamber exhaust system with racing-style silencers • Monocross suspension • Triple slotted-disc brakes with opposed-piston calipers • Tubular 'wide cradle' frame

Adventure Sport

The Lure Of The Road - And The Off-Road,

Adventure! It's not for everybody. It can be rough out there, but one thing is certain, it won't be boring. Whether you're heading around the world, around the country or just around town, we've got the machines for you. The dream machines. Powerful, light and responsive, you can ride them across deserts or on superhighways. Their technology has been tested in the deserts of Africa and on the motocross tracks of Europe. So you're sure to get where you're going, and back again. After all, getting there is only half the fun.

• 4-stroke, liquid-cooled, DOHC 5-valve, parallel twin-cylinder engine

- Dual gear-driven balancer shafts
 Mikuni BDST38 flat-slide downdraught carburettors
- 43mm front forks
 Monocross suspension with Deltabox swinging arm
- Triple disc brakes
 Transistorised digital ignition
- Head fairing with FAI system
 26-litre fuel tank

AMAH

• 4-stroke, SOHC 4-valve, single-cylinder engine • Electric starting • Front and rear drilled-disc brakes • Tank-mounted fairing with dual headlights • 41mm front forks and Monocross suspension • Dry-sump lubrication with oil cooler • Yamaha Duo Intake System • 23-litre fuel tank

XT600E

- 4-stroke, SOHC 4-valve, single-cylinder engine
 Electric starting
- Yamaha Duo Intake System
- Dry-sump lubrication with in-the-frame oil tank
 Rugged 41mm front forks
- Nugged 41mm front forks
 Monocross suspension with Bilstein-type shock absorber
 267mm front disc brake with dual-pot caliper and another 220mm disc at the rear
 Newly designed head cowl with flush-mount headlamp

● 4-stroke, DOHC 4-valve, single-cylinder engine ● Front disc brake ● Air-assisted front forks ● Monocross suspension with damping-adjustable shock absorber ● Lightweight aluminium wheel rims • Yamaha Duo Intake System

Sport & Touring

It's A Small World – But You Won't Want To Tour It Without Your Yamaha.

Touring on a Yamaha means riding with confidence. The kind of confidence that only Yamaha raceproven and highway-tested technology can give. You see, all these machines have been thoroughly tested by the best test riders in the world: you. That's right. These are some of our most popular, wellrespected motorcycles. And as the miles add up, they just keep humming along. Powerful and efficient, quiet and reliable. These are the machines that make a big world seem small.

• 4-stroke, DOHC, parallel four-cylinder engine • Dual slotted-disc front and ventilated-disc rear brakes with opposed piston calipers • Enclosed shaft drive • Streamlined head fairing and engine undercowl • Tubular double-cradle frame • Standard-equipment oil cooler

• 4-stroke, DOHC, parallel four-cylinder engine • Triple slotted-disc brakes with opposed-piston calipers • Monocross suspension • Transistorised digital ignition • Streamlined head fairing and engine undercowl • Tubular double-cradle frame

Cruise In Style.

Some bikes get all the attention. When they pass by, everybody looks. And when they stop, a crowd gathers. Yamaha customs are people magnets. The paint is rich and the chrome is deep. Everything on them sparkles. How do they ride? Well, there's nothing quite like the low-rpm power of Yamaha cruisers. Torquey, responsive and relaxing. Kick back and enjoy the ride. Their engines are efficient and reliable, with many maintenance-free features. This keeps you on the road and out of the garage. Whether power cruising or rolling down your favourite country lane, Yamaha has the ride you've been waiting for.

● 4-stroke, air-cooled, SOHC V-twin engine ● Mikuni BST40 semi flat-slide carburettors ● Damping-adjustable rear shock absorbers ● Dual slotted-disc front brakes ● Enclosed shaft drive • Low, comfortable seat with passenger backrest • Hand-painted fuel tank • Chromed dual exhaust pipes • Transistorised ignition

When The Road Ends, The Fun Begins.

XV535

Get away from it all. Ride out of town and keep on going. Away from the crowds, the traffic and the hectic life. Head up into the mountains where the air is clean. Where you can ride the way you want to. Yamaha lightweight dual-purpose motorcycles can take you almost anywhere. Their engines are powerful, lightweight and responsive. These motorcycles also feature a race-developed rear suspension and long-travel front forks, for smoother handling and a more enjoyable ride. And then when you're ready to go home, these motorcycles take to the streets again with ease.

• 2-stroke, liquid-cooled, Torque Induction, single-cylinder engine • Front disc brake suspension • CD ignition • Yamaha Energy Induction System • Autolube oil Monocross injection system

Commuters, Mopeds & Fun Bikes

Some Of The Quickest And Most Fun Ways Between Two Points.

Put some fun in your city driving with a lightweight Yamaha street bike. Even if you've never ridden before, with proper instruction and practice, you'll soon be on your way. Say goodbye to parking problems and traffic jams. And say hello to incredible fuel economy. You get all the convenience of a car at a fraction of the cost. Many models feature both electric starting and an automatic transmission. Just push the starter button and twist the throttle. With CD ignitions and Autolube automatic gas/ oil mixing, they require only minimal maintenance but give maximum fun. Discover for yourself the fun and freedom of two-wheeled travel.

 ● 2-stroke, Torque Induction, single-cylinder engine ● Yamaha Energy Induction System ● CD ignition ● 5-speed transmission
 ● Autolube oil injection system

• 2-stroke, rotary-disc valve, single-cylinder engine • 4-speed transmission • Telescopic front forks and swinging arm rear suspension • Dual seat • Front and rear sealed drum brakes • Autoluke all leicitics users

● 2-stroke. Torque Induction, single-cylinder engine ● Automatic transmission ● Enclosed shaft drive ● Front basket and rear luggage rack ● CD ignition ● Autolube oil injection system

● 2-stroke, Torque Induction, single-cylinder engine ● 3-speed transmission with automatic centrifugal clutch ● Monocross suspension ● CD ignition ● Autolube oil injection system

ww.legends=uamaha=endurs

• 2-stroke, rotary valve, single-cylinder engine • 4-speed transmission • Enclosed drive chain • Autolube oil injection system • Front and rear sealed drum brakes

• 2-stroke, Torque Induction, single-cylinder engine • Electric starting • V-belt automatic transmission • Telescopic front forks • Complete instrumentation with electric fuel gauge • CD ignition

• 2-stroke, Torque Induction. single-cylinder engine • 5-speed gearbox • Monocross rear suspension • Autolube oil injection system • Front and rear sealed drum brakes • Dual seat • CD ignition • Full size 21 inch front and 18 inch rear wheels

● 4-stroke, SOHC, single-cylinder engine ● Enclosed shaft drive ● 4-speed transmission with automatic centrifugal clutch ● CD ignition ● Easy-to-read instrument panel with electric fuel gauge ● Large legshields and dual seat

• 2-stroke. Torque Induction, single-cylinder engine • Electric starting • V-belt automatic transmission • Extra-wide front and rear tyres • Dual headlights • Dual seat • CD ignition

• 2-stroke, Torque Induction, single-cylinder engine • 54kg dry weight • Front and rear sealed drum brakes • 4-speed transmission • Autolube oil injection system

2-stroke, Torque Induction, single-cylinder engine

Mitsui Racing, with support from Yamaha and Loctite UK, will be contesting selected World, European and National road race championships on the 1990 racing calendar.

Spearheaded by the fully race-kitted 0W01, the all-British team will also be aboard the very exciting and competitive FZR1000 EXUP and FZR600, creating a formidable challenge throughout the season.

From road to off-road, the high profile of the Loctite Motocross Team will be getting the holeshots on the very latest YZ machinery, competing for not only Grand Prix success but all major off-road national titles throughout the year, from schoolboy to adult classes.

Major championship honours in 1990, a racing certainty for Mitsui, Yamaha and Loctite UK.

Mitsui Racing'90

Teny Rymer aboard the Loctite Yamaha factory supported 0W01, competing in the 1989 World Superbike Championship.

Club Yamaha Why it's right for you

Whatever your interest in motorcycling, be it Trials, Motocross, Road Racing or just the thrill of riding a bike, Club Yamaha has a lot to offer you.

Exclusive to Yamaha owners, an annual subscription will entitle you to a membership package, including regular club magazines, membership card, embroidered cloth badge, selfadhesive bike helmet stickers and a document case to hold your magazine.

The magazine will contain machine reports, service data, letters and news about Yamaha products and people. Whether you're new to motorcycling, a regular sports fan or a long established biking enthusiast, Club Yamaha is right for you.

Ask your dealer for the current application form or write to: - Club Yamaha, PO Box 27F, Chessington, Surrey, KT9 1SH.

Yamaha Design

For riders who demand performance with flair, Yamaha introduce a range of designer clothing for the 1990's.

Available exclusively through Yamaha dealers, genuine Yamaha clothing sets you apart from the rest.

Yamaha Security - Unfortunately, you may not be the only person intending to ride your bike home! Protect your investment

with the additional security of Yamaha's Cycle Lok - the strong answer to motor cycle theft.

Available from all Yamaha motor cycle stores, Yamaha's Cycle Lok is the lock made by motorcyclists for motorcyclists.
