

#### DISCOVER NATURE

There's a trout stream about 5 miles north of here.  
What's so neat about it is there's no road. So nobody's ever around.  
You have to ride a Yamaha to get there. Through the timber.  
Then up over a hill and you'll see the stream. It's easy.  
The Trailmaster has a special transmission (the Trailmatic).  
3 speeds for street riding and 3 speeds for trail riding.  
All you do is turn a dial. (No changing sprockets.)  
It even has an electric starter. (Great for girls.)  
You know, if you follow the stream north about a mile,  
you'll come to a little waterfall and pool. It's deep enough to swim in.
