YAMAHA HAPPY

Whether you ride to save, to win or for fun, only a Yamaha will satisfy you! If you ride to save, you're the fellow (or gal) who gets up to 200 mpg. Ahead of the crowd. Ahead of the cars. Breezing to work—or fun-and-games—is just sheer money-saving joy on a 75 cc Step-Thru, a trim 80 cc Sports, or any one of the exciting 100 cc Yamahas. Come on over to Yamaha. 14 swinging models from \$279.

There is a 100 cc model to suit your needs and budget: L2 Single \$349, L1 Twin \$379, L3 Twin Sports \$399.

AUTOLUBE

Every Yamaha has "Autolube", the automatic oil injection system that eliminates messy pre-mixing of oil and petrol, reduces exhaust smoke, and lubricates the engine more efficiently.

TRANSMISSION

3, 4, or 5 speed constant mesh gear shift perfectly matched to power output on every model.

SAFETY LIGHTS

Bigger, brighter headlight, tail light and turning signals for maximum safety and visibility.

EASY STARTING

New "Start Jet" for instant easy starts on every Yamaha, and electric push button starting on four models.

SMOOTH RIDING

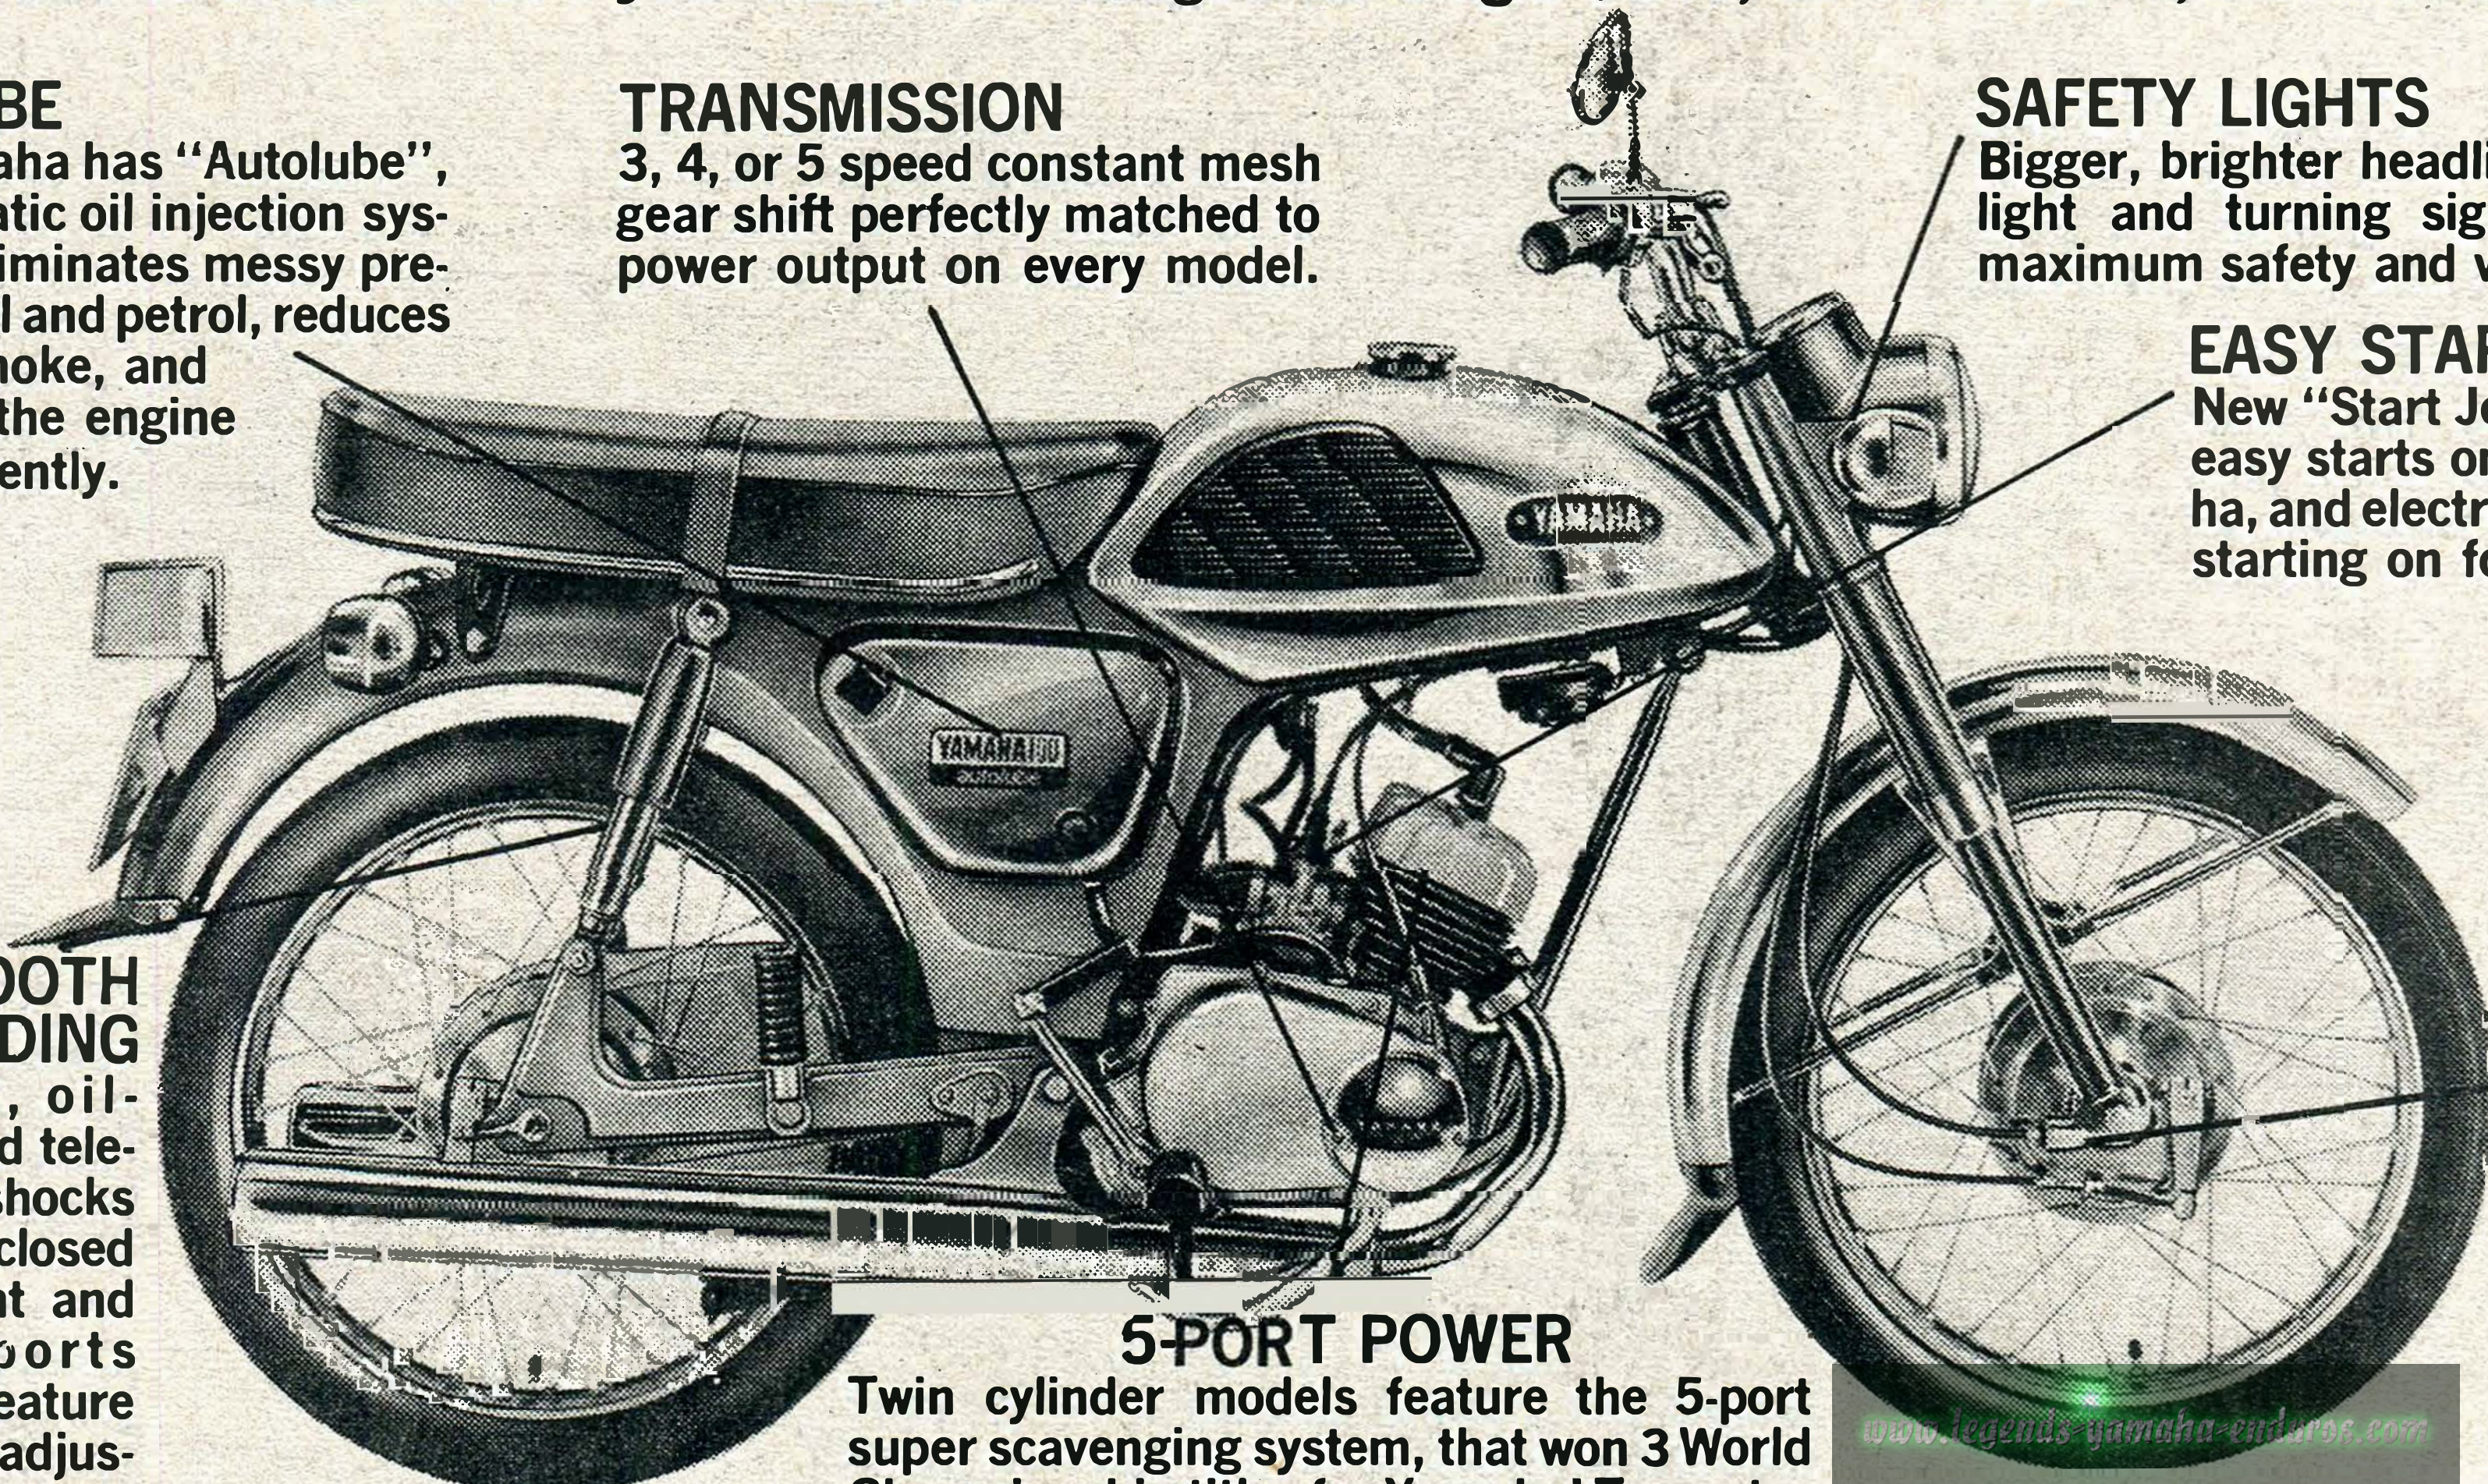

Rugged, oil-dampened telescopic shocks with enclosed coils front and rear. Sports models feature a 3-stage adjustable rear suspension.

5-PORT POWER

Twin cylinder models feature the 5-port super scavenging system, that won 3 World Championship titles for Yamaha! Two extra ports give a full 10 per cent increase in power over conventional piston porting.

SAFETY BRAKES

Exclusive Yamaha brakes are sealed against water and dust, give uniform, positive response.
