## FEATURES

- With liquid cooling and YPVS, this year's YZ125's engine is more powerful and reliable than ever before.
- The new monocross suspension is completely adjustable and provides an exceptionally long 310mm of travel.
- The 6-speed transmission, clutch and air filter have been completely redesigned.
- Both seat and bigger, 8.2 liter fuel tank have been modified for a more comfortable riding posture.
- The exhaust system is completely new to provide added power.
- The front forks have a 38mm inner diameter and allow 300mm of travel for better control and easier handling.
- The front and rear fenders have been made wider for added rider protection.
- The square front number plate doubles as a radiator guard and is specially ducted for improved cooling.
