***You lay that baby
right down on the peg and nail it.
Great Hairy Ned!***

360 RT-1 Enduro. If you were designing a super dirt bike for yourself, this is what you'd want: power—a 360 single with Autolube oil injection mated to a wide-ratio 5-speed gearbox. It puts the power where you need it.

Balance—the motor is angle mounted for the lowest possible center of gravity

with 9.6 inches of ground clearance. Ruggedness—special enduro front forks are designed to cross logs, absorb 10-foot plunges.

Go see for yourself. And say "hi" to Ned.
