

WHAT THE ROAD TEST DOESN'T SAY

Read the road test report. We think it's pretty good, but there's quite a lot more you ought to know. For instance, there are three more great machines in the Yamaha range.

The Hundred Twin Jet Mk II has 12-volt electrics, Autolube automatic oiling, twin carbs and twin exhaust pipes. Good brakes and good roadholding are needed on a machine that gobbles up a standing start $\frac{1}{4}$ -mile in 22.4 seconds, and on

YAMAHA

MOTORCYCLE DIVISION, 117/119 Denmark Road, Camberwell, London, S.E. 5.
Sole Concessionaires: Mitsui & Co Ltd.

the Mk II they're the best.

Our two lightweight scooters, the 75 c.c. Mate and 50 c.c. Pal, are made to last. With no valves, guides, tappets or pushrods, Yamaha are durable and require very little maintenance to keep in top tune.

We pride ourselves on our after sales and speedy spares service. Your dealer has his orders despatched within 24 hours.

Once a Yamaha rider, always a Yamaha rider! Enthusiasts everywhere recognise a good bike when they ride one, that's why more and more motorcyclists are riding Yamaha than ever before.

You are in good company when you ride Yamaha. Phil Read and Bill Ivy are well on their way to becoming 125 c.c. and 250 c.c. world champions.
